#### **More Clearance in Indian Insisted Conflict**

The conflict since May 3 among the Manipur (Kangleiak) communities is neither just a simple unacquainted incident nor a while unconscious thought of incident. If the conflict was an unaware incident, then it could have been solved within a short period of time. The incident occurring in Manipur (Kangleipak) is a never-ending process and it is the culmination of a long planned sinister plot to bifurcate Manipur (Kangleipak) by the Indian Government through some divisive elements. We the CorCom reminding to our compatriots that, deploying more Indian Army in the name of suppressing the present crisis among the brotherhood is not for the protection of the life and economy of the common people, it is just for adding more fuel to the burning communal fire.

To acknowledge by our compatriots, the present incident is not between the two communities. The ongoing crisis of the Manipur (Kangleipak) people is that of the fight to divide Manipur (Kangleipak) due to clever manipulations of the central government giving logistic supported through puppet politicians and occupational forces to their henchmen who targeted the life of the innocent peoples of other communities. It is an evidence and proved that, some few days back, a video clip taken by a drone, broadcast in a Manipur TV channel that armed peoples used by Assam Rifles were transporting from their camp by the Assam Rifles and planned to attack Meetei villages near Pukhao, Imphal East.

At first People of Manipur (Kangleipak) was very thankful for deploying many security forces who will protect and control the present incident but their action seems to be contradictory. It is so unfortunate that the Security forces convinced the people to feel secure that 'We are here for you! 'We will save you! Sleep well! We will protect you! However, the incidence of burning houses and huts by armed militants has been happening In front of the Indian occupational forces. Therefore, helpless villagers were mobilizing to protect themselves day and night.

At this crucial juncture while the people of the hills and valley are suffering from the shortage of necessary commodities, the question of how armed looters waylaid goods laden trucks along the highways while the security personnel who are supposed to protect the trucks doing nothing arises. CorCom requests the people to remain vigilant, as the activities of detractors to destroy Manipur

(Kangleipak) will not stop that easily as the central government sponsors them. The key to end the present imbroglio is in the hands of the ethnic communities of Manipur (Kangleipak).

The unfortunate predicament about the present generation of Manipur is the obsession of some sections of the society with the illusion of the "CONSTITUTIONAL SAFEGUARD" of the Indian Constitution. What they fail to understand is that there is no foolproof safeguard under the Indian Constitution, as the Indian Constitution is flexible it can be amended many times to suit the interests of mainland political practitioners which was amply shown by the special status of Kashmir being shredded into pieces.

Only the constitution of an independent Manipur (Kangleipak) can safeguard the people and fulfill the aspirations of the diverse ethnic communities. If we do not fight to regain our lost nation, we will all perish by falling prey to lies and deceit of the destructive elements and the Indian government.
