RPF CONDEMNS INDIAN DRONE MASSACRE IN KHENMOI-LOIYI

The Indian Army's drone strike on Khenmoi-Loiyi (Khammoi) village, East Konyak Region, Myanmar, on 20 October 2025, that resulted in the death of two civilians – a 27-year-old man and an eight-year-old girl – and left four others critically injured. The Revolutionary People's Front (RPF) strongly condemns the drone strike of India as Cowardice, and an Act of Genocide and War Crime.

The Revolutionary People's Front (RPF) expresses our **Sincere Condolence** for the loss of the young man and the child killed during the Indian Army's drone strikes on October 20, 2025. In addition, we stand in solidarity with the injured and traumatized survivors. RPF reaffirms its commitment to amplify their calls for justice, accountability, and dignity in the face of continuing aggression.

Killing of civilians in the name of Counter Insurgency Operation are not a new to Indian Army; the incident of Rose and Monorama was a vivid example of India Army's heinous crime against civilians of WeSEA. Now India have just used new means, Drones, to murder civilians.

This deliberate cross-border attack on Naga civilian communities represents a grave violation of international humanitarian norms and human decency. This is not an isolated incident. It follows a pattern of Indian drone operations and cross-border strikes earlier in 2025 that targeted both civilian areas and alleged armed group sites along the Indo-Myanmar frontier. Independent observers, ethnic forums, and civil society organisations have repeatedly expressed alarm over this emerging policy of drone warfare that places civilian directly in harm's way and erodes the sanctity of human life.

The RPF urges civil society and human rights groups in the WESEA Region to bring this grave incident to the attention of international human rights and humanitarian organisations, as well as the relevant bodies of the United Nations, and to press for an immediate, independent international inquiry into the 20 October 2025 drone strike and earlier related attacks, to hold the perpetrators accountable under international criminal law; to halt all cross-border military operations that endanger civilian populations; and to ensure urgent humanitarian access and protection for the affected communities.
